In most cases a new TimeTablet will be paired/connected to your TimeDock account before being shipped to you. Follow the below instructions if you need to un-pair/disconnect a TimeTablet from its TimeDock account and pair/connect it to a different account.

#### Disconnect TimeTablet from an account

- 1. Swipe your master key card to the device to access the admin menu.
- 2. Tap on the *System Settings* icon.

3. Scroll down and tap on *Device > Apps*.

	Settings	Mole	Q
	Device		a
ACC -	Display	Sound & notification	
	Battery	Memory	
	Lusers	TIMEDOCK	
	No. C.		

4. Scroll to the bottom of the app list and tap on *TimeTablet*.

	- Apps	<b>*</b> =	
	All apps 👻		
	SuperSU 544 KB	4	
A.	TimeTablet 74.30 MB		
	Constant TimeTabletUpdater	←	
	Xamarin.Android API-28 Support 29.79 MB		
	TIMEDOCK		

5. Tap on *Storage*.

App info			
TimeTable version 2.3.	et	1111	ð
(利)家	ISTALL	FORCE STOP	
Storage 74.30 MB used in In	ternal storage		
Data usage 31.87 KB used since	e Feb 16		6

### Connect TimeTablet to a new account

1. If the TimeTablet is not already connected to the internet, swipe your master key card to the device to access the admin menu and select *Connect WiFi* to connect to your local WiFi network.

In your TimeDock web dashboard, navigate to *Setup > Devices* and click the *Add Device* button. Select the *Hardware* option and then click *Next*. A connection key will be displayed on-screen.

**Note:** Do not close or navigate away from this screen before you've successfully connected your TimeTablet. Doing so will invalidate the connection process.

Con	nect TimeTablet <sup>™</sup> device
Time	Fablet <sup>™</sup> connection key
	0a53ab26-be5b-4a4a-bea5-2785081a95d6
Enter the code abo	code above into your TimeTablet™ device. On success, the ve will turn green.
lf you can	not see where to enter the code, refer to step 1
	Cancel

3. Swipe your master key card to your TimeTablet device to access the admin menu and select *Dock Device*.

4. Enter the connection key displayed on-screen in your web dashboard, and then tap the *Save Preferences* button. If successfully connected, the connection key displayed on-screen in your web dashboard will turn green. If the connection is not successful, check the WiFi connection on the TimeTablet, and enter the connection key again.

Once the connection key has turned green on your web dashboard screen, click the *Finish* button. Your TimeTablet will now be added to your list of devices and you can now manage the permissions and settings from the *Setup > Devices* page.
